Milan, March 26. N. S.

THE two Regiments of *Wirtemberg* that quartered in this Dutchy, came yesterday to *Como*, in order to be there reveiwed, and, being paid off, to be sent back to *Germany*. We hear the Differences between the Dukes of *Savoy* and *Monaco* are not yet adjusted, but that their Subjects will, in all appearance, break out into new Hostilities. Cardinal *Grimani* having waited here some time for the coming of the Prince of *Vaudemont*, is gone for *Rome*, intending to return hither upon the first notice of that Princes arrival, who is shortly expected.

Venice, March 29. The Earl of *Mancheſter*, Envoy Extraordinary from the King of *Great-Britain*, had on the 22th his Audience of Leave of the Senate, and intends in 8 or 10 days to part hence for *England*. A Convoy with some Forces, and a considerable quantity of Provisions and Ammunition, sailed hence last Tuesday for the *Levant*. Signior *Salvioni* is going to *Moscow*, with the Character of Resident from this Republick.

Dantzick, April 2. The King of *Poland* intends on the 6th or 7th Instant to set out for *Warsaw*, and it's now said he will take his way by *Grandetz* and *Thorne*, and not by *Elbing*, as was at first designed. A Treaty is on foot for taking 6000 Men of the Forces of *Saxe-Gotha* into the Service of this Crown. It is much discoursed, that besides the Promises made lately on the part of the King of *Sueden* to assist us against a Foreign Invasion, the like Assurances have likewise been given to our City by the King of *Denmark*, and Elector of *Brandenbourg*. Our Letters from *Lithuania* bring us an account, that the Disorders in that Dutchy are as great as ever, and that General *Sapieha* was marching with some Troops and Cannon against the great Enfign *Oginsky*.

Vienna, March 29. The Emperor's Ministers are daily consulting of the Means to raise the necessary Supplies for increasing and maintaining our Forces in *Hungary* next Summer, and 4 Millions of Livers having lately been demanded of the States of that Kingdom, of which 2 are already paid, Cardinal *Callonitz* went thither some days ago, to sollicit the speedy payment of the remainder. It has been thought fit to make a considerable addition to our Strength on the *Danube*, and Orders are given to hasten the fitting out of the 6 Galleys which are building to that effect, and are in such a forwardness, that one is already launched, which carries 16 great Guns in the lower Tire, and as many small ones and Patereroes on the Deck and Forecastle; so that 'tis hoped they will all join our Fleet by the middle of *May*. A great number of Horses passed lately by this place going for *Hungary* to remount the Cavalry. We hear from the Frontiers, that a Bassa is come to *Jassi* in *Moldavia* with a Sum of Money designed for supplying the Garison of *Caminiec*.

Francfort, April 6. The Meeting of the Circles of the *Upper-Rhine* which has been held here for some days, is now drawing near a Conclusion: We hear the Circle of *Franconia* is to assemble as this day, being to consider of several Points relating to the Supplies demanded of them by the Emperor. Our Advices from *Strasbourg* say, that notwithstanding the Assurances given by the French Court to the Protestants in that City, that no alteration shall be made there in Matters of Religion, several of them were preparing to remove thence with their Families. The Elector *Palatine* has ordered a Placaet to be published, commanding all his Subjects to come and take possession of their Estates within a certain time, on default of which they are to forfeit them.

Hambourg, April 8. Mr. *Cresset*, His Majesty of *Great-Britain*'s Envoy Extraordinary, set out hence yesterday for the Courts of *Hannover* and *Zell*. This morning the Duke of *Holstein* began his Journey to *Stockholme*, where he is going to Marry the Princess Royal of *Sweden*, and the Prince and Princess of *Wolfenbuttell*, who were come hither to take their leaves of that Duke, returned the same day to their usual Residence at *Wolfenbuttell*. The Sieur *Buschol* is lately arrived here as Commissary from the Elector of *Brandenbourg*. Our last Letters from *Stockholme* say, the King of *Sweden* designed to be Crowned at *Upsal* on the 13th Instant, and would afterwards begin his intended Visit of the several Provinces of his Kingdom; And that the Baron *Van Heckeren*, who has resided at that Court on the part of the States-General, had taken his Leave, and was on his departure for *Holland*.

Paris, April 10. The Earl of *Portland*, His Majesty of *Great-Britain*'s Ambassador Extraordinary, went on the 4th Instant to *Nostre-Dame de Liesse*, to meet the Prince of *Vaudemont*, who passed that way in his Journey to *Milan*, of which Dutchy the King of *Spain* has made him Governor. This day his Excellency Entertained the Prince of *Conti* and several Persons of Quality at Dinner. Lieutenant General *Vauban* left this place yesterday, being to Visit *Mezieres*, *Charleville*, *Sedan*, and the other Frontier Places on the *Maese*, after which, he will in his return view the Fortifications of those along the Sea Coasts, and give Orders for their being repaired and strengthned. The Court is expected at *Versailles* next Saturday from *Marli*. Monsieur *d'Artagnan* is returned hither from *Flanders*, the further disbanding of the French Forces on that Frontier being put off for some time. We hear some Troops are marching towards *Mont-Dauphin* in *Dauphine*, to work on the Fortifications intended to be made there, and that others are commanded for the Province of *Guyenne*. The Marquis *de Villars* is appointed to go Envoy Extraordinary to the Emperor; Baron *Schomborne*, late Ambassador from the Elector of *Mentz* at the Treaty of Peace, who came here some time since, has received Orders from that Elector, to take upon him the Character of his Envoy Extraordinary to this Court. We hear from *Strasbourg*, that a difficulty is arisen touching the demolishing of the Bridge at *Brisac*, the Marquis *d'Uxelles* having ordered the whole Bridge to be ruined, whereas the German Officers insist, that that part of it only ought to be pulled down which lies between the Island and the Shore of *Alsace*.
